Arta Stone Parsa

At Arta Stone Parsa, our legacy is etched in the very bedrock we extract from. Since our inception in the year 2000, we've been sculpting elegance from the heart of the Earth. Let us introduce ourselves:

Our Journey: From Quarry to Masterpiece

Marble Extraction: Our quarries cradle the finest marble blocks. Each one holds the whispers of ancient tides and geological epochs. With reverence, we extract these raw treasures, preserving their natural beauty.

Stone Cutting Artistry: Within our cutting factory, artisans wield precision tools. Blades meet marble, revealing intricate veins and timeless patterns. From Bronze Mocha to Black Sky, our craftsmans hip transforms stone into art.

Block and Slab Offerings: Architects, designers, and visionaries find solace in our inventory. Whether you seek the raw potential of marble blocks or the polished allure of slabs, we cater to your dreams. Our blocks lay foundations, while our slabs grace interiors and exteriors alike.

Bronze Mocha Marble

Bronze Mocha Marble is a natural stone that exudes earthiness and elegance. It's characterized by its rich, warm tones and intricate veining patterns. Let's explore the different types of brown marble:

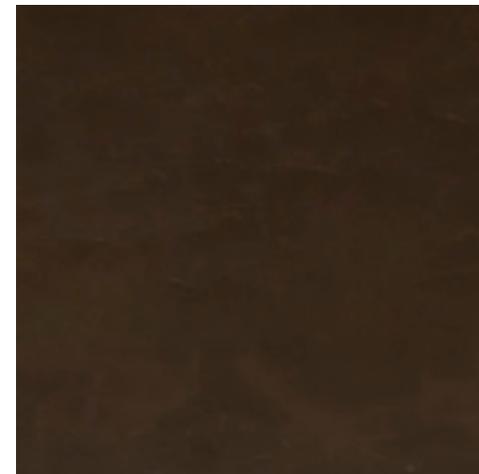

Dark Sorts:

This unique brown marble showcases deep, earthy hues. Its magnificent veining and texture resemble precious stones. Bronze Mocha Marble is especially suitable for luxurious and opulent environments.

Light Sorts:

Lighter shades of brown marble offer versatility and can be used in various settings.

Whether you're considering bathroom walls, flooring, countertops, table tops, or wall claddings, Bronze Mocha Marble adds natural beauty and warmth to your space. Its earthy tones evoke a sense of connection to nature, making it a timeless choice for various design styles.

BEHAZAN

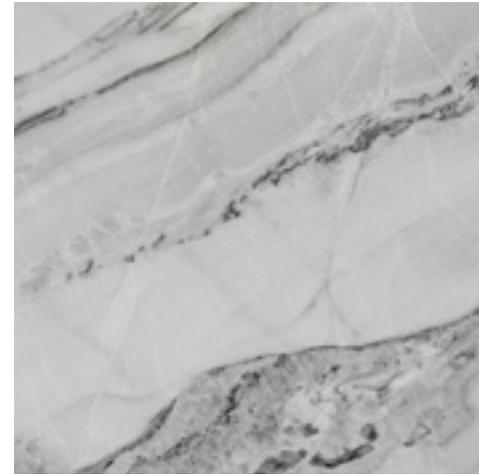

Bianco Crystalline Marble

Bianco Crystalline Marble, with its pristine white color theme and dark gray veins, stands as a testament to nature's artistry. This exquisite stone is revered not only in Iran but also globally for its glossy surface and crystalline material. Let's delve into the fascinating aspects of Bianco Crystalline Marble:

Glossy finish and Crystalline Composition: Bianco Crystalline Marble owes its allure to its high polish and crystalline structure. The glossy surface reflects light, creating a captivating play of shadows.

Lorestan Province, Iran: The quarry of this remarkable stone lies in Lorestan province, specifically in Aligudarz city. The region's geological history has bestowed upon it the perfect conditions for the formation of this marble

BEHAZAN

The image features a dark, almost black background with intricate, white, vein-like patterns that resemble marble. The veins are irregular and flow across the frame. At the bottom, there is a solid teal-colored horizontal bar.

Black Sky Marble

Black Sky marble is a high-quality, black bituminous marble extracted from Iran's quarries. Here are some key details about this exquisite marble:

Color and Appearance:

Black Sky is known for its deep black color with a glossy finish.

It features white veins that create striking contrasts against the dark background.

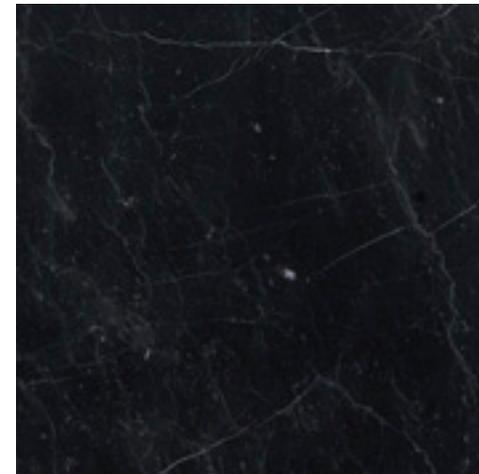

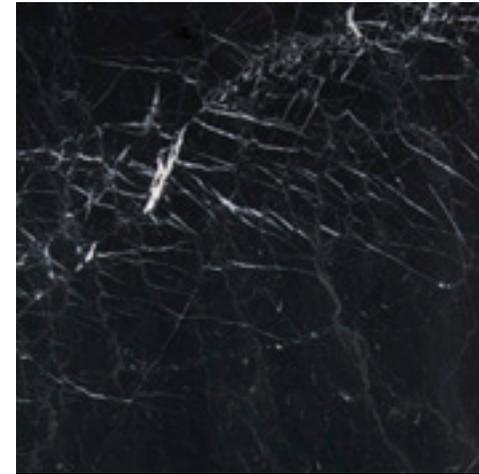

The fine and compact grain of this marble adds to its elegance.

Origin and Significance:

The marble is named after the town of Markina in the Basque Country, where it is quarried.

It has gained global recognition due to its beautiful black hue and distinctive veining patterns.

Black Sky is considered one of the most important marbles from Iran.

BEHAZAN

The image shows a close-up of a marble surface with a light cream or beige base color. It features intricate, organic patterns of darker beige and light brown veins, creating a complex, swirling texture. The lighting is even, highlighting the natural grain and subtle variations in tone of the stone.

Chehrak Cream Marble

Chehrak marble, also known as Cream Marble, is a captivating natural stone with a cream-colored background. Let's explore its features and applications:

Color and Appearance:

Chehrak marble boasts a cream base with intricate veining patterns.

The veins may vary in color, including light and dark brown streaks.

Its overall appearance exudes elegance and sophistication.

Varieties:

Chehrak marble is processed into several varieties:

Cream Chehrak: Cream-colored with beautiful veining.

Golbehi Chehrak: Pale yellowish-pink tones.

Olive Chehrak: Exhibits olive hues.

Each variety has its unique texture and pattern, making it stand out among other marbles.

BEHAZAN

Noche Travertine

Noche travertine is a stunning natural stone known for its rich, dark brown color and distinctive veining patterns. Let's delve into the details:

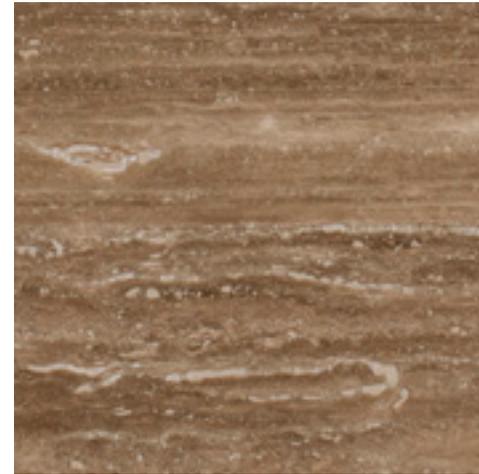

Color and Appearance:

Noche travertine exhibits a deep brown hue, slightly darker than Walnut Travertine. Its surface has a polished finish, giving it a rustic and textured look.

Origin and Durability:

This elegant stone originates from Iran, a country renowned for its abundant natural resources.

Noche travertine is both elegant enough for interior design and strong enough for landscaping projects. Its durability ensures it can withstand the test of time, making it an excellent choice for outdoor applications.
